Special Tool Design Information Checklist

Special Engineering

Greenleaf Corporation is a leading supplier of cuttingtool technology, specializing in the manufacture of highperformance tungsten carbide and ceramic inserts, as well as inventive tool-holding systems. Greenleaf continues to build on 60 years of innovation which centers on supplying customers with productive solutions to their metalcutting needs.

Today, Greenleaf Corporation is positioned to serve the evolving needs of companies in all major segments of the metalcutting industry including gas turbine, steel, medical, roll turning, automotive, machine tools and rail. Greenleaf's products are engineered to provide optimal performance against a wide range of materials under the most rigorous metalcutting conditions.

Special engineered or custom engineered products is a visible strength of the Greenleaf product line. Customers from around the world utilize the Greenleaf engineering services to address their specific, and often complex, requirements. For example, a cantilevered heavy metal head (*pictured at right*) was held to \pm 0,012 inch tolerance for a VTL in the aerospace industry. Ask us to determine if we can assist you in your cutting tool special requirements.

In addition to specially engineered tooling systems and a comprehensive line of carbide inserts, Greenleaf offers high-quality ceramic and ceramic-composite materials which can be custom designed for specific machining applications.

From its headquarters in Saegertown, Pennsylvania, and a facility in North Carolina, Greenleaf maintains its commitment to pioneering breakthroughs in cutting-tool technology and to delivering *Excelerated* solutions for customers around the world.

Bar Peeler Cartridge

KM and Capto Shank

Heavy Metal Head

Keyslot

Quick Change Roll Tool

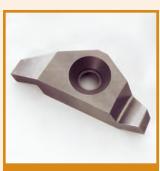

Dovetail Cutter

Heligroove Group

Hogmill

Hook Groove Holder

Long Shaft End Mill

Plungeface Cutter

Pod Bore Head

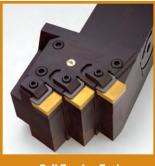

Special Form Insert

V-Bottom

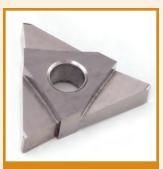

Aero Grooving Tools

Heavy Turning

Tri-Thread Groover
